

What sets Dynasty Homes Apart?

Here are a few of our Quality Features:

1. An owner of Dynasty Homes is on the jobsite during the build every day!
2. We have a 1 year builder Warranty – but we don't sell it to someone else, we handle the Warranty ourselves.
3. We offer an additional 2-10 Home Buyer Warranty. This is 2 years on the homes systems, and 10 years on the structural integrity.
4. We are a Certified High Performance Builder. What that means is that we have every home modeled, tested, and inspected for the energy rating.
5. We do a Geological soil test on every home. Why? Because we go the extra step to "guarantee" that the soil is safe to build on!
6. Engineered lumber packages. Making sure that the way the home is designed and built is the way it is supposed to be built!
7. 2x6 Exterior walls – for added insulation
8. 95% Lennox Gas Furnace
9. Andersen 100 Series Windows
10. Kohler Total Home Builder

This is just to name a few of the little things we do because we think they are important!

We can custom build a home for you, and customize most things, but certain areas we will NOT compromise!
